CHAPTER**
CLUB MANAGEMENT
ASSOCIATION OF AMERICA

SURVIVING COVID-19
and remaining
CAROLINAS STRONG!

The members of the Carolinas Chapter have supported each other throughout this pandemic. No one has experienced anything like this in their lifetimes, and our CHAPTER FAMILY has truly acted like a family. We've asked many questions of each other and done our best to get the answers to everyone quickly.

We've been blessed to be able to keep most of our golf courses and take-out food and beverage open in North Carolina and South Carolina. We thank our allied golf associations in both states for constant communications to be sure that all courses coordinate their plans and enforcement in order to show that golf is a safe activity during this critical time.

As of May 4, the Governor of South Carolina has opened restaurants (and clubs) to outside dining and has lifted the state's "Home or Work" order. Hopefully, North Carolina will do the same soon.

We thank the many sponsors, companies, and organizations that have offered their services by way of webinars to our members. We especially thank our two incredible private club organizations – the Club Management Association of America (CMAA) and the National Club Association (NCA). CMAA's staff has done an amazing job of keeping our managers educated concerning staffing, operations, resources, and legal issues. NCA has offered some of the same along with a large amount of legal information. And both organizations have opened their "membership only" website pages to all, allowing access to critical resources to all of our members.

Throughout it all, we shall stay

CAROLINAS STRONG!
